Lorie,

I put the whole write-up in a document to track the changes. It started getting too messy in email format. I have attempted to answer all the comments and questions. I have also included the issue document which has more detail about the actions at the sites. Let me know if this looks good.

Thanks Lorie.

Connor, I am answering the last question, but if you want help in answering any of the other questions, obviously just let me know and I will be happy to help.

Subject: FW: More questions on Blades and Nonresponsive based on revised scope

Importance: High

Well, the good news is that Peter is about to brief the Administrator on the Spring update sites, which still means we're about 3 months away from finalization, but it's a step in the right direction. The not so good news is that Jim Woolford has a bunch of questions on Blades that he'd like to have answered.

Connor, can you answer these questions?

Ex. 5 Deliberative Process (DP)

Would it be possible to get back to me by COB Tuesday, the 21st?

Thanks!

Lorie

Subject: More questions on Blades and Nonresponsive based on revised scope

Hi Lorie,

The good news is that Peter Wright plans to brief the Administrator on the spring 2020 NPL package "soon". The less than good news is that Jim had a lot of new comments/questions on the writeup for Blades and one question on the writeup for

Nonresponsive based on revised scope Jim completely re-wrote the Blades summary. So could you please check it for accuracy and fill in the responses to Jim's questions?

Thanks.

Terry
